September 24, 2018

Congratulations to the Beech High School faculty and Staff for being named a Reward School for the school year 2017-2018.

Schools across the state are recognized as Reward Schools according to an accountability framework.

This framework is based on principles that all schools can be successful, and all Tennessee students must be served well. It includes a variety of measures, including chronic absenteeism and discipline, ACT performance, and TNReady scores, to make a determination. All schools are rated both on how they serve the full student population and how they are specifically serving student groups that have historically been underserved: students with disabilities, English learners, economically disadvantaged students, and black, Hispanic, and Native American students.

Beech high school teachers and staff hold high expectations for all students and continually assist our student body in excelling through academics.

Beech High School is blessed to have the Staffulty that we do, and we are proud of them for attaining the status of Reward School. It's an honor to be a part of the Beech community.
